

Tours

Wednesday, June 10, 2020

Iroquois Indian Museum is an educational institution dedicated to fostering understanding of Iroquois culture using Iroquois art as a window to that culture. Your visit will begin with a guided tour that will educate you on the history of the Iroquois culture as well as their creative spirit of modern artists and craftspeople. There will be time after your tour to explore the museum on your own. <https://www.iroquoismuseum.org/>

Howe Caverns 90-minute walking tour with a boat ride. The adventure begins with a story on how the cave systems were discovered, then you will descend underground by elevator to begin your journey through the caverns. Here you will experience the mystique of the River Styx, the wonders of Titan's Temple and The Giant Formation on your journey. Howe Caves has many other activities if you wanted to extend your visit. <https://howecaverns.com/>

The Iroquois Indian Museum and Howe Caverns tour are scheduled so that if you are interested, you are able to take both tours. You will need to pay for all tours that you take. See registration form for price and times.

The campus tour will include the livestock barns where we have cows, horses, sheep and goats. Located in the fisheries and wildlife area you can visit the herpetology lab, turtle lab, 40,000-gallon cold water fish hatchery, tropical fish hatchery, warm-water and shell fish hatchery, aquaponics greenhouses and research ponds.

Come and visit us!
